A. J. PETERS SUFFERS THIRD LOSS BY FIRE

Destructive Fire of Yesterday Brings Total Tons of Hay Burned up to About Thirty-five Hundred

Fire of an unknown origin completely destroyed between eleven and twelve hundred tons of alfalfa hay at Gilbert yesterday morning belonging to Alfred J. Peters and Company of Tempe. This is the third loss suffered by the Peters company in as many years, the greatest of the three being that of last fall when fourteen hundred tons of grain and alfalfa hay combined were burned to the ground. To date not a clue has been found leading to any facts that might bring to light the origin of the fires. In each instance the first blaze, that was the beginning of the loss of thousands of dollars, was discovered shortly after it started, but never once has the first person on the scene arrived in time to discover the origin.

The fire of yesterday morning Te new club house of the copper started about three o'clock as near well beyond control. There was nothing to do but stand by and watch the age go up in smoke and flames. The the highway to the north of Tempe, a distance of maybe twenty miles

structure, valued at possibly two thousand dollars, was likewise totally destroyed by the flames. Insurance partially covered the loss on both the hav and barn.
